Guidelines for remuneration to management

The Annual General Meeting resolved on the adoption of guidelines for remuneration to management, principally entailing that the total remuneration shall be competitive and in accordance with market conditions. The benefits shall consist of fixed salary, possible variable remuneration and other customary benefits and pension. The variable remuneration shall have an upper limit and be related to the fixed salary. The variable remuneration shall be based on the outcome in relation to set targets and be in line with the interests of the shareholders. Pension benefits shall be fee-based. The variable remuneration shall not be pension qualifying unless local regulations provide otherwise. The Board shall have the right to deviate from the guidelines in individual cases if there are particular grounds for such deviation. The complete guidelines are published on the company website www.securitas.com/agm2017

Incentive scheme

The Annual General Meeting resolved on a share and cash bonus scheme, a similar incentive scheme that has been decided for the past seven Annual General Meetings. The Board notes that the program is now well established throughout the organization and is delivering the expected results. As per March 2017, a total of 2 258 employees have received shares through the program. The motive for the proposal is the Board's intention to continue with the redesigned bonus structure to enable the Group to gradually have approximately 2 500 of Securitas top managers as shareholders, thus strengthening the employee ownership in Securitas' future success and development to the benefit of all shareholders. The Board is of the opinion that these benefits may be achieved by continuing to provide a share related part in the existing performance-based cash bonus schemes. It is the assessment of the Board that the scheme will also increase the Group's attractiveness as an employer.

The proposal principally entails that 1/3 of any annual bonus earned under the performance based cash bonus schemes would be converted into a right to receive shares, with delayed allotment and subject to continued employment.
