

Securitas

Security Services Ireland

A successful security solution often consists of a combination of concepts, services and technology. Securitas Ireland delivers added value by investing in technology installed at your site. This means that Securitas takes full responsibility for technology investments, including on-site installations and maintenance of security equipment, as well as operations and monitoring services. Securitas owns the equipment and the cost is included in the monthly fixed fee charged to the customer. This results in planning reliability and a considerable quality improvement.

Our Security Solutions

Monitoring services

Whether your priority is to work with established security, fire and safety solutions or the potential of new technologies, such as IP signalling. Securitas Ireland understand that achieving the right solution, reliably and affordably, will be your priority.

Securitas provide a range of managed monitoring services including:

- Intruder Alarms
- Fire Systems
- Virtual Patrolling and Verified Alarms
- CCTV and IP Camera
- Key-holding and Intervention Services
- Lone worker protection
- Personnel tracking
- Access control
- Vehicle track-and-trace
- Plant and asset tracking

Remote Video Solutions (RVS)

Cutting edge cameras and software create real-time security that prevents incidents, optimises security officers' time and reduces costs. RVS is a cloud based, video surveillance solution that offers state-of-the-art security through innovative and cost-effective service packages. The solution is built upon an open platform, is scalable and results in significantly fewer false alarms.

RVS provide:

- Remote alarm verification
- Remote entry/exit management
- Remote escorts
- Remote patrolling
- Remote perimeter protection
- Business intelligence applications

Mobile Security Interventions

This is a cost-effective option for businesses within a set geographical area. Officers serve multiple customers, carrying out patrols and call-out services as required.

Securitas Mobile provide a range of services including:

- Keyholding
- Alarm Response
- Mobile Patrols
- Locks and Unlocks
- Lone worker protection

Whatever the sector, whatever the security requirements; through our knowledge leadership and security specialisation, Securitas Ireland can tailor a cost-effective solution to meet any security requirement.

Securitas is a global knowledge leader in security offering a broad range of customised services designed to deliver the most effective solutions.

Our specialised sector knowledge enables us to deliver tailored solutions to industries including retail, aviation, healthcare, education, hotels & tourism construction and maritime.

Securitas Ireland serves a wide range of customers in a variety of industries and customer segments.

Our protective services, developed together with our customers, are designed to incorporate a high degree of technology content.

Securitas is expected to identify and respond to customer-specific security challenges, provide specialist know-how and dedicate resources. To meet these expectations, our offering is designed with a high degree of flexibility.
