

## Visitor Management: Commercial

### Single source solution for visitor management

Securitas USA offers innovative visitor management systems to help secure facilities and keep you aware of who is visiting your building. Securitas USA is dedicated to providing officers with the most advanced tools to enhance security by use of technology with the best in class solutions for identifying, credentialing, and tracking site traffic.

#### Key Benefits of Securitas Visitor Management:

- » Increase security with real-time visitor logs and updates
- » Save time and increase staff efficiency
- » Comprehensively manage visitor and contractor data
- » Pre-schedule visitors for rapid admittance
- » Print vehicle and visitor passes in advance or at entry

#### Highlighted features:

##### Real-time Reporting

Create and run comprehensive reports for security, boards, administrators and more. Visitor logs, entry point traffic, user profiles, and access rights are updated and available in real-time.

##### Enhanced Security

Keep out unwanted visitors by allowing officers to view visitor profiles, as well as read host comments. Visitors sign in and out, keeping officers aware of who is on-site at all times.

##### Web-based Portal Access

Remotely enable or disable visitor access credentials, run reports, and track access in real-time. View time and date stamped audit trails for access from a remote computer or wireless device.

# Features That Can Benefit Your Entire Organization
