COMMENTS FROM THE PRESIDENT AND CEO

Organic sales growth was strong at 7 percent (3) in the first half year with strong market momentum throughout the Group. We benefit from successful commercial activities in combination with excellent client retention. The operating conditions in the second quarter are similar to the first quarter with favorable macroeconomic conditions in our main markets. We estimate that we grew faster than the security market in general, and our ability to deliver complete security solutions is a market advantage.

The operating margin improved to 4.9 percent, supported by North America and Ibero-America while there was a slight decline in Europe. Earnings per share, adjusted for changes in exchange rates, improved by 15 percent. This growth is based on our strong commercial development and further impacted from the US tax reform from December 2017.

In the first half year we had a strong focus on the price and wage equation and we managed to balance wage cost increases with price increases. We continue to drive our strategy of offering security solutions using technology to our customers also as an option to mitigate higher wage inflation. Security solutions and electronic security sales grew by 20 percent compared with the first half year 2017 and represented 20 percent of total sales. During the second quarter we finalized the acquisition of Kratos Public Safety and Security, a top 10 system integrator in the United States. We are excited to welcome the team from Kratos and the teams from the previously announced acquisitions of Automatic Alarm and Alphatron and greatly enhancing our technical capability in these markets.

We have initiated a cost savings program in Security Services Europe that will be executed in the second half of 2018. We are not satisfied with the operating margin of the business segment and we have identified a number of improvement areas that will contribute to the operating result of the business segment. The restructuring costs for the program is estimated to be in the range of MSEK 200–250 and will be recognized in the third quarter 2018 as an item affecting comparability. The payback period is about 2 years and the savings will start to come in during the fourth quarter 2018 and mostly during 2019.

This is my first full quarter as the President and CEO. Securitas is on a positive and exciting journey and I have continued to meet with our teams and customers in our regions to discuss our position and the short and long term opportunities we have together. Securitas has a strong position in the market, our customers believe in our direction and we are in a good position to drive profitable growth. We have a solid foundation and will speed up the pace of transformation. We will continue to invest and restructure in order to drive the digitization and modernize our information systems and capabilities. With intelligent security we will be able to enhance the value for our customers through better security solutions. These are important themes as we go forward.

We have good growth and momentum across the business and I am looking forward to continue to work with the great Securitas people and our customers as we continue to lead the transformation of the global security industry.

Magnus Ahlqvist
President and Chief Executive Officer

In Security Services North America, organic sales growth was again 8 percent (2). In Security Services Europe the organic sales growth was 5 percent (1) with almost all countries contributing. In Security Services Ibero-America, Spain showed a strong performance while the slow-down in Argentina continued.

Real sales growth, including acquisitions and adjusted for changes in exchange rates, was 8 percent (4).

Sales of security solutions and electronic security sales amounted to MSEK 5 066 (4 094) or 20 percent (18) of total sales in the second quarter 2018. Real sales growth, including acquisitions and adjusted for changes in exchange rates, was 21 percent (17).

Operating income before amortization was MSEK 1 286 (1 137) which, adjusted for changes in exchange rates, represented a real change of 11 percent (1).

The Group's operating margin was 5.0 percent (4.9). Leverage from good organic sales growth contributed to the margin and so did the increased sales of security solutions and electronic security. However, there was a hampering impact on the operating margin related to Security Services Europe whereas the strong performance by Spain contributed to the improvement in the Group.

Operating income after amortization

Amortization of acquisition related intangible assets amounted to MSEK –65 (–61).

Acquisition related costs were MSEK –16 (–9). For further information refer to note 6.

Financial income and expenses

Financial income and expenses amounted to MSEK –103 (–94), due to a combination of the development of USD interest rates, a weaker Swedish krona and increased net debt.

Income before taxes

Income before taxes was MSEK 1 102 (973).

Taxes, net income and earnings per share

The Group's tax rate was 24.6 percent (28.7). The reduction is mainly due to lower US tax rates as from 2018 as a result of the US tax reform. The 2017 full year tax rate was 28.4 percent, excluding a one-off tax expense of 3.1 percent, referring to a revaluation of US net deferred tax assets, due to new US tax rates as from 2018. We continue to assess the US tax reform as more details to the law and interpretations become available and how the development of our business activities impacts our tax situation.

Net income was MSEK 831 (694). Earnings per share amounted to SEK 2.28 (1.89).

Organic sales growth was 8 percent (2) and was strong across the business segment, driven by favorable portfolio development. Security solutions and electronic security sales represented MSEK 1 760 (1 415) or 17 percent (15) of total sales in the business segment in the second quarter 2018.

The operating margin was 6.1 percent (6.0), supported by leverage from the strong organic sales growth. Last year, the operating margin was positively affected by a one-off effect in the quarter. This quarter also benefitted from a one-off effect based on a strong performance in a major contract in the quarter.

The Swedish krona exchange rate weakened against the US dollar, which had a positive effect on operating income in Swedish kronor. The real change was 10 percent in the second quarter.

January–June 2018

The first half of the year had strong organic sales growth due to a combination of good new sales and a solid client retention of 91 percent (91), carrying on the momentum from last year. April–June 2018

Organic sales growth was 5 percent (1) with a strong performance throughout the business segment despite a negative impact from lower refugee-related sales. Main contribution to organic sales growth derived from Belgium, Germany, Sweden and Turkey. The favorable portfolio development continued and was supported by good new sales in many countries.

Security solutions and electronic security sales represented MSEK 2 449 (1 949) or 21 percent (19) of total sales in the business segment in the second quarter 2018.

The operating margin was 5.1 percent (5.2). The decline was mainly explained by operational inefficiencies and by continued investments in the 2020 strategy. The lower level of refugee-related sales also had a negative impact on the operating margin. The project-related electronic security business in Turkey recovered in the second quarter and had a positive impact on the operating margin.

The Swedish krona exchange rate weakened against foreign currencies, primarily the Euro, which had a positive effect on operating income in Swedish kronor. The real change was 6 percent in the second quarter.

January–June 2018

Organic sales growth was 4 percent (0). Almost all the countries supported the development, with main contribution from Belgium, Germany and the guarding business in Turkey. The lower refugee-related sales represented a 1 percent negative impact on organic sales growth in the business segment.

The operating margin was 5.0 percent (5.1). The main reason for the decline was operational inefficiencies that had a negative impact. The lower level of refugee-related sales also had a hampering effect.

The Swedish krona exchange rate weakened against foreign currencies, primarily the Euro, which had a positive effect on operating income in Swedish kronor. The real change was 4 percent in the first half year.

April–June 2018

Organic sales growth was 11 percent (14). The decline was primarily due to Argentina where the macro economic environment and instability in the security market had a negative impact on organic sales growth. Organic sales growth was healthy in the other Latin American countries, and continued to be strong in Spain.

Security solutions and electronic security sales represented MSEK 816 (696) or 26 percent (23) of total sales in the business segment in the second quarter 2018.

The operating margin was 4.7 percent (4.0). The improvement is related to the strong business momentum in Spain, which includes good sales of security solutions, of which some are short term contracts. The operating margin was burdened by Argentina.

The Swedish krona exchange rate strengthened against the Argentinian peso while it weakened against the Euro. The net effect was negative on operating income in Swedish kronor. The real change in the segment was 32 percent in the second quarter.

January–June 2018

Organic sales growth was 10 percent (14). The decline was primarily due to the development in Argentina as mentioned above, and resulted and will result in reduced organic sales growth in the country in the coming quarters. In the other Latin American countries organic sales growth was healthy. Organic sales growth was strong in Spain.

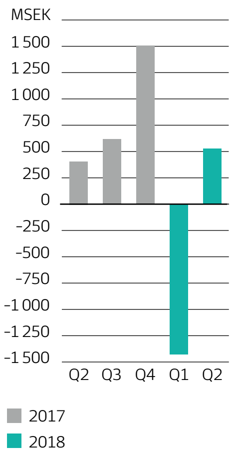
Security solutions and electronic security sales represented MSEK 1 579 (1 379) or 26 percent (23) of total sales in the business segment in the first half 2018.

The operating margin was 4.6 percent (4.1), an improvement driven by a strong performance in Spain. The operating margin was burdened by Argentina, due to turnover in the contract portfolio and negative leverage. We expect that the situation in Argentina will deteriorate further in the second half of 2018. The client retention rate was 93 percent (91).

The Swedish krona exchange rate strengthened against the Argentinian peso while it weakened against the Euro. The net effect was negative on operating income in Swedish kronor. The real change in the segment was 24 percent in the first half year.

Cash flow

Quarterly free cash flow



April–June 2018

Cash flow from operating activities amounted to MSEK 801 (854), equivalent to 62 percent (75) of operating income before amortization.

The impact from changes in accounts receivable was MSEK –463 (–169). Changes in other operating capital employed were MSEK 119 (–27).

Free cash flow was MSEK 528 (411), equivalent to 57 percent (52) of adjusted income.

Cash flow from financing activities was MSEK 312 (309) due to dividend paid of MSEK –1 460 (–1 369) and a net increase in borrowings of MSEK 1 772 (1 678).

Cash flow for the period was MSEK 119 (599).

January–June 2018

Cash flow from operating activities amounted to MSEK –124 (1 226), equivalent to –5 percent (56) of operating income before amortization.

The impact from changes in accounts receivable was MSEK –737 (155). Changes in other operating capital employed were MSEK –1 484 (–971).

Cash flow from operating activities was also impacted by net investments in non-current tangible and intangible assets, amounting to MSEK –280 (–152). The net investments include capital expenditures in equipment for solution contracts.

In the second quarter our cash flow from operating activities recovered from the negative cash flow effect at the end of the first quarter mainly in Europe related to the timing of Easter. The second quarter suffered some negative effects related to a regulatory change in the social security payment timetable in France, an invoicing system change transition in the Netherlands and the interest hike in Argentina causing some payment delays. Also the strong organic sales growth, especially in Security Services North America, resulted in increases in operating capital employed, impacting the cash flow negatively.

Free cash flow was MSEK –900 (165), equivalent to –53 percent (11) of adjusted income.

Cash flow from investing activities, acquisitions, was MSEK –1 236 (–228), of which purchase price payments accounted for MSEK –1 239 (–192), assumed net debt for MSEK 41 (7) and acquisition related costs paid for MSEK –38 (–43).

Cash flow from financing activities was MSEK 1 116 (715) due to dividend paid of MSEK –1 460 (–1 369) and a net increase in borrowings of MSEK 2 576 (2 084).

Cash flow for the period was MSEK –1 019 (652). The closing balance for liquid funds after translation differences of MSEK 38 was MSEK 2 630 (3 611 as of December 31, 2017).

The Group's operating capital employed was MSEK 10 514 (7 560 as of December 31, 2017), corresponding to 10 percent of sales (8 as of December 31, 2017), adjusted for the full-year sales figures of acquired units. The translation of foreign operating capital employed to Swedish kronor increased the Group's operating capital employed by MSEK 394.

The increase in operating capital employed is mainly explained by the delayed cash flow from operating activities as explained under the cash flow section, in combination with the increased business volume in Security Services North America and a higher need for operating capital employed related to electronic security sales. Securitas' approach to enterprise risk management is described in more detail in the Annual Report for 2017.

In the preparation of financial reports, the Board of Directors and Group Management are required to make estimates and judgments. These estimates and judgments impact the statement of income and balance sheet as well as disclosures such as contingent liabilities. The actual outcome may differ from these estimates and judgments under different circumstances and conditions.

For the forthcoming six-month period, the financial impact of certain previously recognized items affecting comparability, provisions and contingent liabilities, as described in the Annual Report for 2017 and, where applicable, under the heading "Other significant events" above, may vary from the current financial estimates and provisions made by management. This could affect the Group's profitability and financial position.

Report of Review

(Translation of Swedish Original)

Review report over Interim Financial Statements (Interim report) prepared in accordance with IAS 34 and Chapter 9 of the Swedish Annual Accounts Act.

Introduction

We have reviewed this report for the period January 1, 2018 to June 30, 2018 for Securitas AB. The Board of Directors and the CEO and President are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Report Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, ISA, and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act, regarding the Group, and with the Swedish Annual Accounts Act, regarding the Parent Company.

NOTE 1 ACCOUNTING PRINCIPLES

This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act. The interim report comprises pages 1–29 and pages 1–15 are thus an integrated part of this financial report.

Securitas' consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as endorsed by the European Union, the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's standard RFR 1 Supplementary Accounting Rules for Groups. The most important accounting principles under IFRS, which is the basis for the preparation of this interim report, can be found in note 2 on pages 65 to 71 in the Annual Report for 2017. The accounting principles are also available on the Group's website www.securitas.com under the section Investors – Financial data – Accounting Principles.

The Parent Company's financial statements are prepared in accordance with the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's standard RFR 2 Accounting for Legal Entities. The most important accounting principles used by the Parent Company can be found in note 39 on page 119 in the Annual Report for 2017.

Adoption and impact of new and revised IFRS that have been applied as from 2018

Two new accounting standards, IFRS 9 Financial instruments and IFRS 15 Revenue from Contracts with Customers, have been applied by Securitas as of January 1, 2018. The effects of the transition to these standards are described briefly below. For further information, refer to note 2 on page 65 in Securitas' Annual Report 2017 as well as to notes 2 and 3 in this interim report.

Regarding IFRS 9 Financial instruments, we expect minimal impact on the financial statements from hedge accounting under IFRS 9 compared with the previous hedge accounting under IAS 39. The application of the expected credit loss model for impairment testing of financial assets has had only a limited impact on the financial statements. Securitas' transition to IFRS 9 has consequently not entailed any restatement of the comparative figures.

Regarding IFRS 15 Revenue from Contracts with Customers, Securitas' transition to IFRS 15 has been based on a full retrospective application without use of any practical expedients. The current revenue recognition under IFRS 15 has not been materially impacted compared to revenue recognition under previous standards. A disaggregation of Securitas' revenue on type of revenue as well as a description of these can be found in note 3 in this interim report. Revenue split by segment is accounted for in the segment overviews as well as in note 3.

The main impact on Securitas due to the transition to IFRS 15 is that certain costs to obtain contracts have been capitalized in accordance with IFRS 15. The effects of restating the comparative year 2017 due to this change in accounting principle is accounted for in note 2 in this interim report. The restatement has had no effect on the Group´s segments, as they will continue with the principle of expensing costs to obtain contracts as they are incurred. The effects of the restatement are thus accounted for under Other in the Group´s segment overviews.

None of the other published standards and interpretations that are mandatory for the Group's financial year 2018 are assessed to have any impact on the Group's financial statements.

Introduction and effect of new and revised IFRS that are effective as from 2019 and onwards

IFRS 16 Leases comes into force on January 1, 2019 and will be adopted by Securitas as of that date. For further information regarding the effects on Securitas from the transition to IFRS 16, refer to note 2 on page 65 in Securitas' Annual Report 2017. The effect on the Group's financial statements from other standards and interpretations that are mandatory for the Group's financial year 2019 or later remain to be assessed.

Usage of key ratios not defined in IFRS

For definitions and calculations of key ratios not defined in IFRS, refer to notes 4 and 5 in this interim report as well as to note 3 in the Annual Report 2017.

NOTE 2 RESTATED COMPARATIVES DUE TO CHANGES IN ACCOUNTING PRINCIPLES

The tables below show restated comparative figures for the Group. The restatement is done to reflect that the Group has adopted IFRS 15 as of January 1, 2018. This change has had effect only on total Group level and thus had no effect on segment level. The effects of the restatement are thus accounted for under Other in the Group´s segment overviews. For further information, refer to note 1 in this report as well as to note 2 on page 65 in Securitas Annual Report 2017.

The tables below show the lines in the consolidated financial statements that have been affected by the transition to IFRS 15. Lines that have not been affected by IFRS 15 are not included. The lines in the tables below consequently do not add up to the total amounts. Refer to Securitas' published interim reports 2017 as well as Securitas' Annual Report 2017 for the numbers before restatement for IFRS 15.

CONSOLIDATED STATEMENT OF INCOME

The restatement impact on the consolidated statement of income is recognized on the line selling and administrative expenses and constitutes the net of the period's capitalized and amortized costs to obtain a contract. The tax effect is recognized on the line deferred taxes.

CONSOLIDATED CAPITAL EMPLOYED AND FINANCING

The restatement impact on consolidated capital employed and financing constitutes the net amount of capitalized and amortized costs to obtain a contract, classified as an intangible asset, and recognized as an increase of operating capital employed. This increase is partly offset by the related deferred tax liability, which reduces operating capital employed. The net impact after taxes of adoption of IFRS 15 is recognized in retained earnings as an increase of shareholders´equity.

Guarding services
This comprises on-site and mobile guarding, which is services with the same revenue recognition pattern. Revenue is recognized over time, as the services are rendered by Securitas and simultaneously consumed by the customers. Such services cannot be reperformed.

Security solutions and electronic security
This comprises two broad categories regarding security solutions and electronic security.

Security solutions are a combination of services such as on-site and/or mobile guarding and/or remote guarding. These services are combined with a technology component in terms of equipment owned and managed by Securitas and used in the provision of services. The equipment is installed at the customer site. The revenue recognition pattern is over time, as the services are rendered by Securitas and simultaneously consumed by the customers. A security solution normally constitutes one performance obligation.

Electronic security consists of the sale of alarm installations comprising design and installation (time, material and related expenses). Revenue is recognized as per the contract, either upon completion of the conditions in the contract, or over time based on the percentage of completion. Remote guarding (in the form of alarm monitoring services), that is sold separately and not as part of a security solution, is also included in this category. Revenue recognition is over time as this is also a service that is rendered by Securitas and simultaneously consumed by the customers. The category further includes maintenance services, that are either performed upon request (time and material) with revenue recognition at a point in time (when the work has been performed), or over time if part of a service level contract with a subscription fee. Finally there is also a to a limited extent product sales (alarms and components) without any design or installation. The revenue recognition is at a point in time (upon delivery).

Other
Other comprises mainly corporate risk management services that are either recognized over time or at a point in time as well as other ancillary business.

Other operating income
Other operating income consists in its entirety of trade mark fees for the use of the Securitas brand name.
