### COMMENTS FROM THE PRESIDENT AND CEO

The Group continued with strong market momentum reaching organic sales growth of 6 percent (4) in the first nine months, despite facing tougher comparatives in the third quarter. We benefit from successful commercial activities in combination with excellent client retention, and we grew faster than the security market in general. We continue to drive our strategy of combining different protective services into security solutions to our customers. Security solutions and electronic security sales grew by 22 percent compared with the first nine months 2017 and represented 20 percent of total Group sales.

The operating margin was 5.1 percent (5.0), with improvements in both North America and Ibero-America while there was a slight decline in Europe. We have been able to balance wage cost increases with price increases in the first nine months. We see favourable macroeconomic conditions and labor shortage becoming more prominent in many markets. This situation is creating both challenges and opportunities and going into 2019 we continue with a strong focus on balancing prices and wages and offering alternative solutions to our customers.

The previously communicated cost savings program in Security Services Europe was initiated in the third quarter. The program will result in improved efficiency and includes 13 countries. Restructuring costs of MSEK 268 were recognized in the third quarter 2018 as an item affecting comparability. The payback period is about 2 years, some savings will start to come in during the fourth quarter 2018 but mostly during 2019.

Earnings per share, adjusted for changes in exchange rates and items affecting comparability, improved by 14 percent. This growth is based on our strategic and commercial development and positively impacted by the US tax reform.

During our investor update that took place in Stockholm in September, we were able to meet with many investors, analysts and media and I had the opportunity to share my view on the industry, our current situation and the journey ahead. Security is a good industry to be in and Securitas has a leading position in the market. We have demanding and loyal customers that believe in our direction and we are in a good position to create enhanced value for our customers and drive profitable growth. We are determined to deliver on our Vision 2020 strategy and lead the transformation of the global security industry. With intelligent security we will be able to further enhance the value for our customers through better security solutions. We will continue to invest and restructure in order to drive the digitization and modernize our information systems and capabilities. These are our focus areas as we go forward.

# January–September summary

## ACCOUNTING PRINCIPLES

Comparatives have been restated for the Group due to the transition to IFRS 15. The restatement has been recognized on Group level and thus had no effect on the Group´s segments. As of July 1, 2018, Securitas has adopted IAS 29 Financial reporting in hyperinflationary economies for our operations in Argentina. When calculating the key ratios for organic sales growth percentage and real change percentage, the impact from the remeasurement is treated similarly to currency change. The calculated key ratio percentages are thus comparable as to how these were calculated before the adoption of the IAS 29. Further information can be found in notes 1, 2 and 3 on pages 21–23.

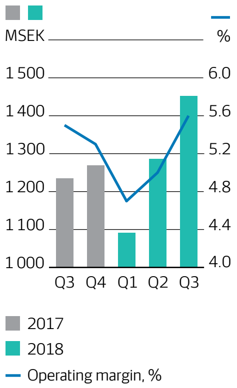
**Group quarterly operating income development**



## JULY–SEPTEMBER 2018

### *Sales development*

Sales amounted to MSEK 25 821 (22 651) and organic sales growth was 6 percent (5). Also the third quarter showed strong sales momentum across the Group. In Security Services North America, organic sales growth was 5 percent (6) with strong comparatives. In Security Services Europe organic sales growth was 5 percent (2) with almost all countries contributing. In Security Services Ibero-America, organic sales growth improved to 14 percent (13).

Real sales growth, including acquisitions and adjusted for changes in exchange rates, was 8 percent (6).

Sales of security solutions and electronic security sales amounted to MSEK 5 215 (4 032) or 20 percent (18) of total sales in the third quarter 2018. Real sales growth, including acquisitions and adjusted for changes in exchange rates, was 24 percent (16).

### *Operating income before amortization*

Operating income before amortization was MSEK 1 452 (1 235) which, adjusted for changes in exchange rates, represented a real change of 12 percent (5).

The Group's operating margin was 5.6 percent (5.5). Leverage from good organic sales growth, good performance in our guarding business and continued growth of security solutions contributed to the operating margin. However, there was a hampering impact on the operating margin related to the performance in Security Services Europe.

### *Operating income after amortization*

Amortization of acquisition related intangible assets amounted to MSEK –67 (–59).

Acquisition related costs were MSEK –16 (–7). For further information refer to note 7.

Items affecting comparability were MSEK –268 (0) and related to the previously communicated cost savings program in Security Services Europe.

### *Financial income and expenses*

Financial income and expenses amounted to MSEK –91 (–86), positively impacted by MSEK 18 that relate to hyperinflation accounting in Argentina. The negative development of the underlying financial income and expenses is due to a combination of the development of USD interest rates, a weaker Swedish krona and increased net debt.

### *Income before taxes*

Income before taxes was MSEK 1 010 (1 083).

### *Taxes, net income and earnings per share*

The Group's tax rate was 25.0 percent (27.7). The tax rate adjusted for tax on items affecting comparability was 25.3 percent. The reduction is mainly due to lower US tax rates as from 2018 as a result of the US Tax reform. The 2017 full year tax rate was 28.4 percent, excluding a one-off tax expense of 3.1 percent, referring to a revaluation of US net deferred tax assets, due to new US tax rates as from 2018. We continue to assess the US tax reform as more details to the law and interpretations become available and how the development of our business activities impacts our tax situation.

Net income was MSEK 757 (783). Earnings per share amounted to SEK 2.07 (2.15). Earnings per share before items affecting comparability was SEK 2.61 (2.15).

* As of July 1, 2018, Securitas has adopted IAS 29 Financial reporting in hyperinflationary economies for our operations in Argentina. When calculating the key ratios for organic sales growth percentage and real change percentage, the impact from the remeasurement is treated similarly to currency change. The calculated key ratio percentages are thus comparable as to how these were calculated before the adoption of IAS 29. The impact of adopting IAS 29 is a net reduction of sales with MSEK 65 and a net reduction of operating income before amortization of MSEK 3 in the quarter and for the first nine months.

### *July–September 2018*

Organic sales growth was 14 percent (13). The improvement derived from a strong performance in Spain. Organic sales growth in the quarter was also driven by Argentina through price increases.

Security solutions and electronic security sales represented MSEK 834 (687) or 27 percent (24) of total sales in the business segment in the third quarter 2018.

The operating margin was 4.7 percent (4.2), an improvement relating to the strong performance in Spain which includes good sales of security solutions. Some of these security solutions contracts are short term and the longevity is difficult to estimate. The operating margin was burdened by Argentina.

The Swedish krona exchange rate strengthened against the Argentinian peso while it weakened against the Euro. The net effect was negative on operating income in Swedish kronor. The real change in the segment was 24 percent in the third quarter.

### *January–September 2018*

Organic sales growth was 11 percent (14). The decline was primarily due to Argentina where the macro economic environment and instability in the security market had a negative impact on organic sales growth. In the other Latin American countries organic sales growth was healthy. Organic sales growth was strong in Spain.

Security solutions and electronic security sales represented MSEK 2 413 (2 066) or 26 percent (23) of total sales in the business segment in the first nine months 2018.

The operating margin was 4.6 percent (4.1), an improvement driven by Spain. The operating margin was burdened by Argentina, due to turnover in the contract portfolio and negative leverage. The Argentinian economy is deteriorating further and we expect challenging conditions in the coming quarters. The client retention rate was 92 percent (91).

The Swedish krona exchange rate strengthened against the Argentinian peso while it weakened against the Euro. The net effect was negative on operating income in Swedish kronor. The real change in the segment was 24 percent in the first nine months.

Also, the strong organic sales growth, especially in Security Services North America, impacted change in accounts receivable. Changes in other operating capital employed were MSEK –977 (–698), with negative impact from a regulatory change in the social security timetable in France.

Cash flow from operating activities was also impacted by net investments in non-current tangible and intangible assets, amounting to MSEK –375 (–199). The net investments include capital expenditures in equipment for solution contracts.

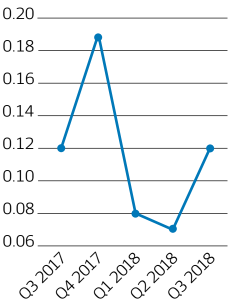
**Free cash flow/net debt**



***Capital employed as of September 30, 2018***

The Group's operating capital employed was MSEK 9 847 (7 560 as of December 31, 2017), corresponding to 10 percent of sales (8 as of December 31, 2017), adjusted for the full-year sales figures of acquired units. The translation of foreign operating capital employed to Swedish kronor increased the Group's operating capital employed by MSEK 114.

The increase in operating capital employed is mainly explained by the delayed cash flow from operating activities as explained under the cash flow section, in combination with the increased business volume in Security Services North America and a higher need for operating capital employed related to the changed sales mix from growing different protective services. The Group also continues to invest into the execution of the strategy with investments in customers' site equipment.

The annual impairment test of all Cash Generating Units (CGU), which is required under IFRS, took place during the third quarter 2018 in conjunction with the business plan process for 2019. None of the CGUs tested for impairment had a carrying amount that exceeded the recoverable amount. Consequently, no impairment losses have been recognized in 2018. No impairment losses were recognized in 2017 either.

The Group's total capital employed was MSEK 32 557 (27 872 as of December 31, 2017). The translation of foreign capital employed to Swedish kronor increased the Group's capital employed by MSEK 884. The return on capital employed was 15 percent (17 as of December 31, 2017).

***Financing as of September 30, 2018***

The Group's net debt amounted to MSEK 15 749 (12 333 as of December 31, 2017). The net debt was positively impacted mainly by free cash flow of MSEK 318, while it was negatively impacted mainly by cash flow from acquisitions of MSEK –1 622, dividend of MSEK –1 460, paid to the shareholders in May 2018, and the translation of net debt in foreign currency to Swedish kronor of MSEK –723.

The free cash flow to net debt ratio amounted to 0.12 (0.12). The net debt to EBITDA ratio was 2.5 (2.3). The interest cover ratio amounted to 11.9 (11.3).

Securitas has a revolving credit facility with its 12 key relationship banks. This credit facility comprises two respective tranches of MUSD 550 and MEUR 440 and matures in 2022. On September 30, 2018, the facility was undrawn. Further information regarding financial instruments and credit facilities is provided in note 9.

Standard and Poor's rating for Securitas is BBB with stable outlook.

Shareholders' equity amounted to MSEK 16 808 (15 539 as of December 31, 2017). The translation of foreign assets and liabilities into Swedish kronor increased shareholders' equity by MSEK 161. Refer to the statement of comprehensive income on page 15 for further information.

## NOTE 1 ACCOUNTING PRINCIPLES

This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act. The interim report comprises pages 1–30 and pages 1–14 are thus an integrated part of this financial report.

Securitas' consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as endorsed by the European Union, the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's standard RFR 1 Supplementary Accounting Rules for Groups. The most important accounting principles under IFRS, which is the basis for the preparation of this interim report, can be found in note 2 on pages 65 to 71 in the Annual Report for 2017. The accounting principles are also available on the Group's website www.securitas.com under the section Investors – Financial data – Accounting Principles.

The Parent Company's financial statements are prepared in accordance with the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's standard RFR 2 Accounting for Legal Entities. The most important accounting principles used by the Parent Company can be found in note 39 on page 119 in the Annual Report for 2017.

***Adoption and impact of new and revised IFRS that have been applied as from January 1, 2018***

Two new accounting standards, IFRS 9 Financial instruments and IFRS 15 Revenue from Contracts with Customers, have been applied by Securitas as of January 1, 2018. The effects of the transition to these standards are described briefly below. For further information, refer to note 2 on page 65 in Securitas' Annual Report 2017 as well as to notes 2 and 4 in this interim report.

Regarding IFRS 9 Financial instruments, Securitas' transition to IFRS 9 has not entailed any restatement of the comparative figures. The impact on the financial statements from hedge accounting under IFRS 9 compared with the previous hedge accounting under IAS 39 has been minimal. The application of the expected credit loss model for impairment testing of financial assets has had only a limited impact on the financial statements.

Regarding IFRS 15 Revenue from Contracts with Customers, Securitas' transition to IFRS 15 has been based on a full retrospective application without use of any practical expedients. The current revenue recognition under IFRS 15 has not been materially impacted compared to revenue recognition under previous standards. A disaggregation of Securitas' revenue on type of revenue as well as a description of these can be found in note 4 in this interim report. Revenue split by segment is accounted for in the segment overviews as well as in note 4.

The main impact on Securitas due to the transition to IFRS 15 is that certain costs to obtain contracts have been capitalized in accordance with IFRS 15. The effects of restating the comparative year 2017 due to this change in accounting principle is accounted for in note 2 in this interim report. The restatement has had no effect on the Group´s segments, as they will continue with the principle of expensing costs to obtain contracts as they are incurred. The effects of the restatement are thus accounted for under Other in the Group´s segment overviews.

***Adoption and impact of IFRS that have been applied as from July 1, 2018***

As of July 1, 2018, Securitas has adopted IAS 29 Financial reporting in hyperinflationary economies for our operations in Argentina. This includes the subsidiaries with functional currency in ARS as well as consolidated goodwill that is consolidated into SEK from ARS. IAS 29 has been adopted without restatement of any of the consolidated financial statements in the Group's presentation currency SEK. This is based on IAS 21 § 42 (b).

The balance sheet items not already expressed in terms of the measuring unit current as of July 1, 2018 have been remeasured by applying a general price index. Due to the lack of one index covering the whole period for which remeasurement is needed, Securitas has used the consumer price index, National congress price index or the Internal Price Index related with Commercial/Production of Products. Securitas believes that this gives a reasonable level of accuracy. As of July 1, 2018, the index was 9.17 with the base period being January 2003. As of September 30, 2018, the index was 10.41 with the same base period. The financial statements subject to remeasurement are based on the historical cost approach.

The initial remeasurement of all relevant balance sheet items has been recognized as part of other comprehensive income on the line Remeasurement for hyperinflation net of tax. Where relevant, deferred tax has been considered. Subsequent measurement of the consolidated goodwill balance as of September 30 is also recognized as part of other comprehensive income. This is based on the fact that goodwill would be offset in equity if pushed down to subsidiary level. Also, it does not contribute to any changes in the net monetary position of the subsidiary. Subsequent remeasurement of the balances on subsidiary level is part of the net monetary gain or loss recognized in the statement of income as part of financial income and expenses.

After remeasurement of the financial statements, including both the statement of income and the balance sheet for the operations in Argentina, they have been translated at the closing rate as of the most recent balance sheet date. For the income statement this applies to the period July 1 to September 30, 2018, and all subsequent periods.

None of the other published standards and interpretations that are mandatory for the Group's financial year 2018 are assessed to have any impact on the Group's financial statements.

***Introduction and effect of new and revised IFRS that are effective as from 2019 and onwards***

IFRS 16 Leases comes into force on January 1, 2019 and will be adopted by Securitas as of that date. For further information regarding the effects on Securitas from the transition to IFRS 16, refer to note 2 on page 65 in Securitas' Annual Report 2017. The effect on the Group's financial statements from other standards and interpretations that are mandatory for the Group's financial year 2019 or later remain to be assessed.

***Usage of key ratios not defined in IFRS***

For definitions and calculations of key ratios not defined in IFRS, refer to notes 5 and 6 in this interim report as well as to note 3 in the Annual Report 2017.

## NOTE 2 RESTATED COMPARATIVES DUE TO CHANGES IN ACCOUNTING PRINCIPLES

The tables below show restated comparative figures for the Group. The restatement is done to reflect that the Group has adopted IFRS 15 as of January 1, 2018. This change has had effect only on total Group level and thus had no effect on segment level. The effects of the restatement are thus accounted for under Other in the Group´s segment overviews. For further information, refer to note 1 in this report as well as to note 2 on page 65 in Securitas Annual Report 2017.

The tables below show the lines in the consolidated financial statements that have been affected by the transition to IFRS 15. Lines that have not been affected by IFRS 15 are not included. The lines in the tables below consequently do not add up to the total amounts. Refer to Securitas' published interim reports 2017 as well as Securitas' Annual Report 2017 for the numbers before restatement for IFRS 15.

### CONSOLIDATED CAPITAL EMPLOYED AND FINANCING

The restatement impact on consolidated capital employed and financing constitutes the net amount of capitalized and amortized costs to obtain a contract, classified as an intangible asset, and recognized as an increase of operating capital employed. This increase is partly offset by the related deferred tax liability, which reduces operating capital employed. The net impact after taxes of adoption of IFRS 15 is recognized in retained earnings as an increase of shareholders´equity.

***Guarding services***
This comprises on-site and mobile guarding, which is services with the same revenue recognition pattern. Revenue is recognized over time, as the services are rendered by Securitas and simultaneously consumed by the customers. Such services cannot be reperformed.

***Security solutions and electronic security***
This comprises two broad categories regarding security solutions and electronic security.

Security solutions are a combination of services such as on-site and/or mobile guarding and/or remote guarding. These services are combined with a technology component in terms of equipment owned and managed by Securitas and used in the provision of services. The equipment is installed at the customer site. The revenue recognition pattern is over time, as the services are rendered by Securitas and simultaneously consumed by the customers. A security solution normally constitutes one performance obligation.

Electronic security consists of the sale of alarm installations comprising design and installation (time, material and related expenses). Revenue is recognized as per the contract, either upon completion of the conditions in the contract, or over time based on the percentage of completion. Remote guarding (in the form of alarm monitoring services), that is sold separately and not as part of a security solution, is also included in this category. Revenue recognition is over time as this is also a service that is rendered by Securitas and simultaneously consumed by the customers. The category further includes maintenance services, that are either performed upon request (time and material) with revenue recognition at a point in time (when the work has been performed), or over time if part of a service level contract with a subscription fee. Finally there is also a to a limited extent product sales (alarms and components) without any design or installation. The revenue recognition is at a point in time (upon delivery).

***Other***
Other comprises mainly corporate risk management services that are either recognized over time or at a point in time as well as other ancillary business.

***Other operating income***
Other operating income consists in its entirety of trade mark fees for the use of the Securitas brand name.

***Revenue per segment***
The Group's business segments follow the same accounting principles for revenue recognition as the Group. The disaggregation of revenue by segment is shown in the table below. Total sales agree to total sales in the segment overviews.

## NOTE 6 DEFINITIONS AND CALCULATION OF KEY RATIOS

The calculations below relate to the period January–September 2018.

***Interest coverage ratio***
Operating income before amortization (rolling 12 months) plus interest income (rolling 12 months) in relation to interest expenses (rolling 12 months).
Calculation: (5 097.9 + 54.4) / 433.7 = 11.9

***Free cash flow as % of adjusted income***
Free cash flow as a percentage of adjusted income (operating income before amortization adjusted for financial income and expenses, excluding revaluation of financial instruments, and current taxes).
Calculation: 317.7 / (3 828.5 – 287.3 – 1.8 – 713.8) = 11%

***Free cash flow in relation to net debt***
Free cash flow (rolling 12 months) in relation to closing balance net debt.
Calculation: 1 823.8 / 15 749.1 = 0.12

***Net debt to EBITDA ratio***
Net debt in relation to operating income after amortization (rolling 12 months) plus amortization of acquisition related intangible assets (rolling 12 months) and depreciation (rolling 12 months).
Calculation: 15 749.1 / (4 493.4 + 266.7 + 1 620.9) = 2.5

# Notes

***Operating capital employed as % of total sales***
Operating capital employed as a percentage of total sales adjusted for the full-year sales of acquired entities.
Calculation: 9 846.5 / 100 102.9 = 10%

***Return on operating capital employed***
Operating income before amortization (rolling 12 months) plus items affecting comparability (rolling 12 months) as a percentage of the average balance of operating capital employed.
Calculation: (5 097.9 – 267.9) / ((9 846.5 + 7 559.8) / 2) = 55%

***Return on capital employed***
Operating income before amortization (rolling 12 months) plus items affecting comparability (rolling 12 months) as a percentage of closing balance of capital employed.
Calculation: (5 097.9 – 267.9) / 32 556.8 = 15%

***Net debt equity ratio***
Net debt in relation to shareholders' equity.
