COMMENTS FROM THE PRESIDENT AND CEO

Strong organic sales growth

Organic sales growth remained exceptionally strong also in the first quarter of the year. We estimate that we are growing faster than the security markets in the US and Europe as well as in many of the Ibero-American countries, mainly supported by our strategy of providing security solutions and electronic security. The growth was further supported by continued higher levels of security needs in Europe.

Earnings per share and operating margin improved

Earnings per share improved by 14 percent in the first quarter, adjusted for changes in exchange rates. The operating margin improved to 4.8 percent (4.7).

Continued strong growth of security solutions and electronic security sales

Sales of security solutions and electronic security were strong in the first quarter and in line with our expectations. We believe that we can continue to increase our sales of security solutions and electronic security at a high pace in the coming years and to make this a substantial part of the Group's total sales. The completed acquisition of Diebold's North American Electronic Security business on February 1, 2016 also makes a substantial contribution in accelerating our transformation of the security industry.

Group quarterly sales development

JANUARY-MARCH 2016

Sales development

Sales amounted to MSEK 20 614 (19 486) and organic sales growth was 8 percent (5). All business segments showed strong organic sales growth and the increase of security solutions and electronic security sales supported the development in the Group. Security Services Europe had the largest impact on organic sales growth, to a large extent driven by the higher level of security needs in a number of countries in Europe but also by a good sales growth of the contract portfolio. Organic sales growth in Security Services North America was primarily driven by the five geographical regions and the business unit critical infrastructure services. The real sales growth in the business segment was positively impacted by the inclusion of the acquired commercial contracts and operational assets of Diebold Incorporated's Electronic Security business in North America (Securitas Electronic Security) as of February 1, 2016. Organic sales growth in Security Services Ibero-America was strong, but the total sales volume in SEK was negatively impacted by the large devaluation of the Argentinian peso.

Real sales growth, including acquisitions and adjusted for changes in exchange rates, was 10 percent (5).

Operating income before amortization

Operating income before amortization was MSEK 996 (909) which, adjusted for changes in exchange rates, represented a real change of 15 percent (6).

The Group's operating margin was 4.8 percent (4.7). The operating margin in Security Services North America and in Security Services Europe improved, while it declined in Security Services Ibero-America due to the devaluation of the Argentinian peso. Across all business segments the increase of higher margin sales of security solutions and electronic security had a positive impact on the operating margin. In Security Services North America, the consolidation of Securitas Electronic Security was accretive. The total price adjustments in the Group were on par with wage cost increases.

Operating income after amortization

Amortization of acquisition related intangible assets amounted to MSEK -66 (-68).

Acquisition related costs were MSEK -20 (-10). For further information refer to note 5.

Financial income and expenses

Financial income and expenses amounted to MSEK -84 (-75).

Quarterly operating income development

January-March 2016

The organic sales growth was 5 percent (5), including an effect from the leap day of 1 percent. Organic sales growth remained high, in spite of strong comparatives, and was driven by continued strong new sales. Main contribution to organic sales growth derived from the five geographical regions and the specialized business unit critical infrastructure services. Also, the sales within security solutions and electronic security increased and supported organic sales growth in the business segment in the first quarter. The positive sales development was further explained by the consolidation of the acquired commercial contracts and operational assets of Diebold Incorporated's Electronic Security business in North America (Securitas Electronic Security) on February 1, 2016.

The operating margin was 5.3 percent (5.1). The improvement reflected the increase of the higher margin sales of security solutions and electronic security, where the inclusion of Securitas Electronic Security had the main positive impact on the operating margin in the first quarter.

The Swedish krona exchange rate strengthened versus the US dollar which had a negative effect on the operating income in Swedish kronor. The real change was 15 percent in the first quarter.

The client retention rate was 92 percent (89). The employee turnover rate in the business segment was 69 percent (59).

Quarterly sales development

SECURITY SERVICES EUROPE

Security Services Europe provides security services for large and medium-sized customers in 26 countries, and airport security in 15 countries. The service offering also includes mobile security services for small and medium-sized businesses and residential sites, and electronic alarm surveillance services. In total, the organization has approximately 900 branch managers and 118 000 employees.

January-March 2016

Organic sales growth was 8 percent (3), driven by positive net change in the contract portfolio, price increases and higher extra sales. This was reflected in a number of countries, such as Denmark, the Netherlands and Turkey, while Germany and Sweden were the main contributors to organic sales growth in the first quarter. The increased need for security services due to the refugee situation and the terror attacks represented about half of the organic sales growth, predominantly impacting the Nordic countries, Belgium, France and Germany. Sales within security solutions and electronic security increased and supported organic sales growth in the business segment in the first quarter.

The Aviation contract concerning security control at Arlanda Stockholm airport with annual sales of MSEK 320 will be terminated in February 2017.

The operating margin was 5.4 percent (5.2). The high organic sales growth impacted the operating margin positively through leverage of the cost base.

The full year negative impact on operating result for 2016 due to the increased social costs in Sweden is estimated to MSEK -26 compared to full year 2015.

The Swedish krona exchange rate strengthened versus the euro and a number of other currencies which had a negative effect on the operating income in Swedish kronor. The real change was 13 percent in the first quarter.

The client retention rate was 91 percent (92). The employee turnover was 27 percent (26).

January-March 2016

Organic sales growth was 13 percent (11). Argentina was the main contributor to the business segment's organic sales growth, however due to the devaluation of the Argentinian peso the sales volume declined when translated to Swedish kronor. Organic sales growth improved in countries such as Colombia, Peru and Portugal. Latin America showed strong organic sales growth of 24 percent (23), despite a considerable slowdown in the macro economy. The sales within security solutions and electronic security increased and supported organic sales growth in the business segment in the first quarter.

The operating margin was 4.6 percent (4.7), a decline explained by the devaluation of the Argentinian peso as Argentina has a higher than average operating margin in the segment and the Argentinian peso devaluated substantially. Spain improved the operating margin in the first quarter.

The Swedish krona exchange rate strengthened slightly against the euro and together with the devaluation of the Argentinian peso this had a significant negative impact on the operating income in Swedish kronor. The real change in the segment was 18 percent in the first quarter.

The client retention rate was 92 percent (92). The employee turnover was 31 percent (27).

Quarterly operating income development

Quarterly free cash flow**January-March 2016**

Cash flow from operating activities amounted to MSEK 175 (435), equivalent to 18 percent (48) of operating income before amortization.

Cash flow from operating activities has been impacted from net investments in non-current tangible and intangible assets, amounting to MSEK -43 (-54). The net investments include capital expenditures in equipment for solution contracts reflecting our strategy to increase the sales of security solutions and electronic security. Such investments affect the free cash flow and are depreciated over the contract duration.

The impact from changes in accounts receivable was MSEK -187 (-213). Changes in other operating capital employed were MSEK -591 (-207). Last year was positively impacted by payroll timing in the US operations.

Free cash flow was MSEK -227 (67), equivalent to -32 percent (10) of adjusted income.

Cash flow from investing activities, acquisitions, was MSEK -3 200 (-90), of which purchase price payments accounted for MSEK -3 181 (-82) and acquisition related costs paid accounted for MSEK -19 (-8). The main part of the cash flow from investing activities relates to the acquisition of the commercial contracts and operational assets of Diebold Incorporated's Electronic Security business in North America.

Cash flow from financing activities was MSEK 4 167 (-908) due to a net increase in borrowings.

Cash flow for the period was MSEK 737 (-938). The closing balance for liquid funds after translation differences of MSEK -4 was MSEK 2 804 (2 071 as of December 31, 2015).

Diebold's Electronic Security - North America

As disclosed in earlier press releases, interim reports and the annual report, Securitas in October 2015 agreed to acquire the commercial contracts and operational assets of Diebold Incorporated's Electronic Security business in North America, which is the third largest commercial electronic security provider in North America. For more than 70 years, Diebold's North American Electronic Security business has brought together technology innovations, security expertise and quality services to become a leading provider of comprehensive electronic security solutions and services to business customers. Diebold's North American Electronic Security business has approximately 1 100 employees. In the beginning of 2016, the Regulatory authorities approved Securitas' acquisition of Diebold's North American Electronic Security business. The acquisition was finalized on February 1, 2016, from which date it was consolidated in Securitas.

ACQUISITIONS AFTER THE FIRST QUARTER**Draht+Schutz, Germany**

Securitas has acquired the electronic security company Draht+Schutz in Germany. Enterprise value is estimated to MSEK 115 (MEUR 12.5). Draht+Schutz Unternehmensgruppe is a full-service provider in the electronic security industry. It offers a full spectrum of consulting, design, installation and maintenance of anti-burglary and fire control systems, CCTV, access control and perimeter security systems. Draht+Schutz has national coverage in Germany and is mainly operating in the small and medium sized enterprise segment. The company has a strong focus on multi-location chain accounts and petrol stations, where they offer standardized solutions and a high degree of process automation. Draht+Schutz has 160 employees and annual sales of approximately MSEK 175 (MEUR 19). Regulatory authorities approved the acquisition on May 2, 2016, from which date it was consolidated in Securitas.

For critical estimates and judgments, provisions and contingent liabilities refer to the Annual Report 2015. If no significant events have occurred relating to the information in the Annual Report, no further comments are made in the Interim Report for the respective case.

Authorization to repurchase shares in Securitas AB

In order to be able to contribute to shareholder value, the Board considers it beneficial for the company to be able to adjust the company's capital structure as appropriate at each point in time. The Board has therefore decided to propose to the Annual General Meeting on May 4, 2016, that the Board be authorized to be able to resolve on the acquisition of the company's shares for a period until the next Annual General Meeting, up to a maximum of ten (10) percent of the issued shares in the company. For this purpose, the Board intends to propose that any shares that have been repurchased as per such an authorization be cancelled.

Spain - tax audit

As described on page 109 in the Annual Report 2015, the Spanish tax authority has rejected certain deductions. Different matters are in different stages of being handled by the tax authority and competent courts. The Supreme Court has during the first quarter of 2016 issued its sentence regarding the years 2003-2005, some of it contradictory and some of it in line with the opinion of the lower courts. Securitas will now have to wait for the tax authority to execute a final assessment for these years based on the sentence in order to fully understand the impact. We believe any exposure to be within the amounts as disclosed in the 2015 Annual Report.

Risks and uncertainties

Risk management is necessary in order for Securitas to be able to fulfill its strategies and achieve its corporate objectives. Securitas' risks fall into three main categories; contract risk, operational assignment risk and financial risks. Securitas approach to enterprise risk management is described in more detail in the Annual Report for 2015.

In the preparation of financial reports the Board of Directors and Group Management are required to make estimates and judgments. These estimates and judgments impact the statement of income and balance sheet as well as disclosures such as contingent liabilities. Actual outcome may differ from these estimates and judgments under different circumstances and conditions.

For the forthcoming nine-month period, the financial impact of certain previously recognized items affecting comparability, provisions and contingent liabilities, as described in the Annual Report for 2015 and if applicable above under the heading "Other significant events", may vary from the current financial estimates and provisions made by management. This could affect the Group's profitability and financial position.

The Group's Parent Company, Securitas AB, is not involved in any operating activities. Securitas AB provides Group Management and support functions for the Group.

January-March 2016

The Parent Company's income amounted to MSEK 202 (214) and mainly relates to license fees and other income from subsidiaries.

Financial income and expenses amounted to MSEK 646 (1 125*). The decrease of financial income and expenses compared to last year is mainly explained by exchange rate differences. Income before taxes amounted to MSEK 957 (852*).

As of March 31, 2016

The Parent Company's non-current assets amounted to MSEK 41 593 (38 504 as of December 31, 2015) and mainly comprise shares in subsidiaries of MSEK 40 282 (37 282 as of December 31, 2015). Current assets amounted to MSEK 6 818 (5 079 as of December 31, 2015) of which liquid funds amounted to MSEK 2 265 (401 as of December 31, 2015). The increase in liquid funds is due to the receipt of dividends from Group companies and funding.

Shareholders' equity amounted to MSEK 26 581 (25 689 as of December 31, 2015). The Parent Company's liabilities and untaxed reserves amounted to MSEK 21 830 (17 894 as of December 31, 2015) and mainly consist of interest-bearing debt.

Note 1 Accounting principles

This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act.

Securitas' consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as endorsed by the European Union, the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's standard RFR 1 Supplementary Accounting Rules for Groups. The most important accounting principles under IFRS, which is the basis for the preparation of this interim report, can be found in note 2 on pages 65 to 71 in the Annual Report for 2015. The accounting principles are also available on the Group's website www.securitas.com under the section Investors - Financial data - Accounting Principles.

The Parent Company's financial statements are prepared in accordance with the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's standard RFR 2 Accounting for Legal Entities. The most important accounting principles used by the Parent Company can be found in note 39 on page 115 in the Annual Report for 2015.

Effect of amended and revised IFRS that are effective as of 2016

None of the published standards and interpretations that are mandatory for the Group's financial year 2016 are assessed to have any impact on the Group's financial statements.

Amendment of RFR 2 IAS 21 as of 2016

The Swedish Financial Reporting Board has amended the standard RFR 2 Accounting for Legal Entities. The amendment is related to IAS 21 and states that exchange rate differences arising on a monetary item that forms part of the Parent Company's net investment in a foreign subsidiary should be accounted for in the Parent Company's statement of income. Before the amendment came into force, RFR 2 stated that these exchange rate differences should be accounted for in other comprehensive income, which was not in line with IAS 21 paragraph 32. The amendment applies to financial years beginning on or after January 1, 2016.

The amendment affects financial income and expenses in the Parent Company's statement of income. It also affects translation reserve in the Parent Company's equity, as the exchange rate differences no longer will be accounted for on this line. The comparative year 2015 in the Parent Company's financial statements has been restated to reflect this amendment.

The amendment has no effect on the Group's financial statements where these exchange rate differences, as previously, are recorded in the translation reserve in equity.
