Securitas divests Global Elite Group in the US

As of March 31, Securitas has divested Global Elite Group, part of its US airport security business, to an affiliate of H.I.G. Capital, LLC. In 2025, the business generated approximately MUSD 100 (BSEK 1) in sales.

Global Elite Group is a US-based provider of aviation security services to airports, airlines and airport-related companies, employing around 1 800 people.

"We are pleased to have completed this divestment to H.I.G. Capital. The business has a solid foundation with strong client relationships and a highly dedicated team, and H.I.G. is well positioned to continue developing it for the benefit of both clients and employees. This divestment is part of our strategic assessment program, which is now nearing completion. Through this program, we are reshaping our business mix and geographic presence to build a sharper and more focused company for the future", says Magnus Ahlqvist, Securitas President and CEO.

The transaction has resulted in a capital gain, which will be reported as an item affecting comparability in the first quarter of 2026.
