

**Safer Schools**

## What are the risks to your school?

Do you have:

- Problems *with* vandalism?
- Issues *with* unauthorised people on site out of school hours?
- Valuable equipment to protect?

The needs vary depending on whether the learning facility is a pre-school, primary school, secondary school, University or vocational college.

Each educational establishment is very different and Securitas develop a strategy that is tailor-made to its own unique circumstances and its demographics.

The measures deployed should reflect the needs of the school and its educational requirements as well as the demands of its security needs and concerns.

With new high tech teaching practices comes expensive equipment on site, which can often be targeted by thieves, reducing the effectiveness of teaching practices and often disrupting lesson plans.

Schools provide a safe and healthy learning environment, which can often be reduced due to vandalism and littering of school premises out of school hours. Not only can this be unsightly, but it can also lead to areas of the school having to be out of bounds for pupils, and members of the school staff spending valuable time dealing with the problem.

Securitas Ireland Mobile Interventions is already working in many local areas with a variety of schools to ensure staff and pupils are protected and premises are not defaced or accessed by unauthorised personnel.

Our levels of service range from keyholding and alarm response, to mobile patrols, locks and unlocks. These services can be used in a variety of packages to ensure that you are getting the cover appropriate for your school.

Securitas Ireland Mobile Security Interventions *has a variety of ways to integrate the services mentioned from **basic** or holiday cover, right to the complete security solution for your school.*

## Keyholding and Alarm Response

- Reduce risk to staff
- Keep school operational
- Minimise loss and damage

Our keyholding and alarm response service is a must have for all schools, it ensures that none of your staff have to be called to attend site if your alarm is activated. be it a false alarm or for an intruder. With the HSE's policy on lone workers, our service protects the school and it's staff, ensuring no liability suits are raised against you for not attaining due care and diligence. Securitas Mobile uses our unique Trac-vault system to store your keys on site. This vastly reduces response time when attending activations and therefore, minimises the risk of loss or damage to your school.

## Mobile Patrols

- Visual deterrent to crime
- Proactive security solution
- Full audit trails

Our mobile patrols are a highly effective visual and physical deterrent, used to move unauthorised people off site and deter theft. Our fully trained, PSA licensed mobile patrol officers. will patrol the school site. All officers wear the highly recognisable Securitas uniform and drive our liveried vehicles. which again act as a strong visual deterrent to unauthorised people on site, therefore, reducing the likelihood of theft and vandalism. All our patrol sites are set up with our Guard Reporting System (GRS), free of charge. This unique reporting system provides accurate accounts of where and when our guards have been on site and acts as proof of our world class service.

## Locks and Unlocks

- Reduce your carbon footprint
- Guarantee security of your premises
- Reduce your labour costs

These services are becoming ever more popular due to the rising energy costs and every business' need to reduce their carbon footprint. Our fully trained and PSA licensed staff. will thoroughly patrol and secure your school buildings, as stipulated by you in our Assignment Instructions. Our officers can turn off lights and equipment, whilst also ensuring that windows and doors are securely closed and locked. reducing energy bills. whilst also securing your site. Once again all sites would be fitted with our GPS system as detailed above. to provide you with accurate reports of services provided.
