COMMENTS FROM THE PRESIDENT AND CEO

Organic sales growth reached 5 percent in the first quarter, an improvement reflected in all business segments. The improved macro economy in the US supported the growth and Spain turned to positive organic sales growth for the first time in several years.

Earnings per share improved

The operating margin remained stable and earnings per share improved with 10 percent in real terms in the first quarter.

Technology is reshaping the security industry

We have been preparing for the paradigm shift in the security industry for the past four years. Our strategy is clear: to integrate on-site, remote and mobile guarding services with technology solutions to achieve a higher level of customer satisfaction through cost-efficiency and added value.

Increasing the sales of security solutions and technology will continue to be the most important strategic focus of Securitas in years to come. In 2014, security solutions and technology sales grew with 28 percent compared to 2013. We estimate that we can continue to grow the sales of security solutions and technology in at least the same range in 2015 and the trend in the first quarter supports that target.

January-March 2015

The organic sales growth was 5 percent (1), primarily driven by the strong sales development in the five guarding regions. We estimate that the Affordable Care Act (ACA) implementation will contribute to organic sales growth in Security Services North America with approximately 1 percent in 2015.

The operating margin was 5.1 percent (5.0), an improvement mainly related to leverage from good organic sales growth and stable costs. The employer mandate of the ACA has taken effect on January 1, 2015 in the USA. We are compliant with the ACA, and we have not had any negative impact on our results in the first quarter as we have been able to mitigate the cost impact.

The Swedish krona exchange rate weakened significantly versus the U.S. dollar which had a positive effect on the operating income in Swedish kronor. The real change was 6 percent in the quarter.

The client retention rate was 89 percent (86). The employee turnover rate in the business segment was 59 percent (51).

In Spain the quarterly trend of recovery continued and organic sales growth was positive for the first time since 2011.

For critical estimates and judgments, provisions and contingent liabilities refer to the Annual Report 2014. If no significant events have occurred relating to the information in the Annual Report, no further comments are made in the Interim Report for the respective case.

Authorization to repurchase shares in Securitas AB

In order to be able to contribute to shareholder value, the Board considers it beneficial for the company to be able to adjust the company's capital structure as appropriate at each point in time. The Board has therefore decided to propose to the Annual General Meeting on May 8, 2015, that the Board be authorized to be able to resolve on the acquisition of the company's shares for a period until the next Annual General Meeting, up to a maximum of ten (10) percent of the issued shares in the company. For this purpose, the Board intends to propose that any shares that have been repurchased as per such an authorization be cancelled.

Spain - tax audit

As described on page 113 in the Annual Report 2014, the Spanish tax authority has rejected certain deductions. One matter regards a disallowance of interest deductions for the years 2003-2009 where different years currently are in different levels of the Spanish court system. Regarding the years 2006-2007 Securitas has now received a negative judgment from the first level of court TEAC. This judgment contradicts and disregards a judgment in favour of Securitas which was issued by the superior court Audiencia Nacional in 2014, concerning the same matter for the years 2003-2005, which has been appealed by the tax authority to the Supreme Court. Another matter regards a disallowance of an applied tax exemption for a demerger of the Spanish Securitas Systems company in 2006 for which Securitas has now received a negative judgment from TEAC. If finally upheld by the Spanish courts, the amounts disclosed in the Annual Report 2014 would still be relevant. Securitas will now appeal the two judgments to the next level of court, Audiencia Nacional. Securitas believes it has acted in accordance with applicable law and will defend its position in the courts. However, the tax resolutions cause some uncertainty and it may take a long time until a final judgment is made.

Risks and uncertainties

Risk management is necessary in order for Securitas to be able to fulfill its strategies and achieve its corporate objectives. Securitas' risks fall into three main categories; contract risk, operational assignment risk and financial risks. Securitas approach to enterprise risk management is described in more detail in the Annual Report for 2014.

In the preparation of financial reports the Board of Directors and Group Management are required to make estimates and judgments. These estimates and judgments impact the statement of income and balance sheet as well as disclosures such as contingent liabilities. Actual outcome may differ from these estimates and judgments under different circumstances and conditions.

For the forthcoming nine-month period, the financial impact of certain previously recognized items affecting comparability, provisions and contingent liabilities, as described in the Annual Report for 2014 and if applicable above under the heading "Other significant events", may vary from the current financial estimates and provisions made by management. This could affect the Group's profitability and financial position.
